

Hey Judge Mijovich. In a manner similar to what I had to warn the WA Police of, I am unavoidably receiving information about what you and SCst Muir are talking about and doing. You need to silence the people you collude with, so they stop scarring me and wanting to scare my by 'telling' me what you and your friends are up to.

If you can not accept the results of the oral fluid test, I can offer you some insight. Firstly, it had been two days since I ate some. Secondly, the methamphetamine has changed recently, into a state where there is no effect from consuming it. I can explain possibly why, but it would be conjecture. Thirdly, the raod side test might have registered my NRT coolmint, as I am discontinuing smoking.

Now here is the real problem. Your colluding friends, who are the hallucinations of my schizophrenia, can not stop attempting to induce my suicide. As part of the tactics, they regularly call me God. If you do not objectively and indifferently accept the results of the oral fluid test, it is going to seem as if I am more reliable and respectable than your good self (which I am not). If you make efforts to run a case against me, prior to the proceedings of the court (including knowing what case the DPP wants to make), you shall have to resign yourself to feeling happy that your *actus reus* got prevented, since your *mens rea* as appalling as my driving record.

I have explanations for most of the speeding offences I have committed, but I am deeply involved in suppressing and defeating a global organised crime syndicate, and this is why I did not contest most of those offences in court. Now I have already been sanctioned for those prior offences, and though I accept they tell a dreadful story, I am not available for double jeopardy. I believe the people who rat you out, when they tell me you had in mind a sentence of incarceration. That would be unnecessary because the community will be just as well served and protected by the imposition of a 12 month or more period of suspension. The community is not at peril or endangered by me catching public transport.

But if you fail to keep your objectivity and detachment regarding my case, you can expect the Australian Federal Police, the CIA and the FBI, and a couple of congress people, and some others, to contact you, directly or indirectly, to discuss pornography, child sex trafficking, and not Freemasonry. This is not to defend me, but because you are an esteemed and hugely accomplished important man, who should do better than to display an irrational penchant over a case before it has been run on it's merit.

I have made 37 Crimestoppers reports, 13 reports to Hornsby Police Station, 1 Report to Interpol, 1 report to the Australian Federal Police, 3 to the FBI, 4 to the US Department of Homeland Security, 1 Report to the US Ice Project, 166 to CyberTipOffLine, And so on. I urge you to read the Crimestoppers reports, if you are in doubt of my availability to be contacted.

Thank,

Have a nice day,

ScottGod
